

**Film & Film Wrapping**

# Advanced balewrapping solutions

Less silage  
losses

Easy Opening

Denser  
bales

Optimised  
recycling

[www.silotite.com](http://www.silotite.com)

Film&Film (F&F) wrapping is an dual wrapping method, which combines the use of Silotite balewrap and Baletite net replacement film. This results in better shaped and more compact bales which can better withstand handling, and deliver less losses inside the bale alongside easier feed out. F&F films are fully recyclable, along with their sleeve packaging.

- High holding force > more compact bales
- Fully recyclable<sup>^</sup> > no need to separate
- Consistent performance > fewer silage losses
- Smooth film surface > easier feed out

### Silotite Pro

Width (mm)	Thickness (µm)	Length (m)	Packaging	Colours Available*		
				Green	Black	White
750	20	2000	Sleeve	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

\* Colours may vary according to region

### Baletite for compactor machinery

Application	Width (mm)	Thickness (µm)	Length (m)	Reels Per Pallet (#)	Pallet Dimensions (cm)	Pallet Height (m)
Maize/Sugar Beet	950	13	2400	20	112 x 130	+ 1.10
	1280					

### Baletite for grass

Grass	1280	16	2000	20	112 x 130	+ 1.10
Grass	1380	16	2000	20	112 x 147	+ 1.10

### BaletiteGo

Grass	1280**	20	1650	20	112 x 130	+ 1.10
Grass	1380	20	1650	20	112 x 147	+ 1.10

\*\*UV Protected

Baletite is manufactured in ISO 9001, ISO 14001, ISO 45001 and ISO 50001 accredited manufacturing facilities.

In the unlikely event of a problem each reel of Baletite is individually labelled to ensure 100% traceability
